PRESENTATION

The National Police of the Dominican Republic, as the host institution of the IV World Police Games of the International Police Sports Union (USIP), presents this expansion of the IPSC Practical Shooting Technical Manual as a guiding instrument for the planning, coordination and execution of the discipline. The document integrates the sports, operational, logistical, security, infrastructure, arms control, emergency response and risk management aspects necessary to develop an international competition under uniform and verifiable conditions.

The discipline will be conducted in accordance with the current IPSC regulations, the provisions of the USIP and the technical decisions adopted by the accredited authorities of the event. Its application will be mandatory for the organising staff, technical officials, support teams and participating delegations, without prejudice to the specific provisions issued by the Organising Committee.

CHAPTER I. GENERAL DATA, PURPOSE, OBJECTIVES AND SCOPE

1.1 General Competition and Participation Data

For the purposes of organization, registration and formation of delegations, the following general information is established:

APPEARANCE	INFORMATION
Share by country	A team composed of 5 regular athletes, 1 substitute and 1 delegate, for a maximum of 7 members.
Male and female	The team can be male, female or mixed; There is no separate mandatory number of men and women.
Location	Hatillo Shooting Range, San Cristobal, Dominican Republic.
Date	From 27 to 29 October 2026.
Registration deadline	September 10, 2026.

1.2 Purpose

To establish a common technical-operational framework that allows the IPSC Practical Shooting discipline to be organized with high levels of camaraderie, security, competitive transparency, logistical efficiency and contingency response capacity.

1.3 General objective

Regulate the planning, organization, execution, supervision and evaluation of the IPSC Practical Shooting discipline during the IV USIP 2026 World Police Games, ensuring compliance with applicable international standards and the appropriate coordination of institutional resources.

1.4 Specific objectives

- Standardize the technical and operational procedures of the competition.
- Define the command structure and responsibilities of each component.
- Guarantee security in the handling, transport, custody and use of weapons and ammunition.
- To organize the registration, accreditation, inspection and control of the participating delegations.
- Establish preventive and response measures for incidents and emergencies.
- Ensure the availability of infrastructure, ammunition, targets, equipment and support services.
- To preserve a level playing field and the integrity of the results.

1.5 Scope

The provisions include the phases of preparation, assembly, tests, official training, competition, awards, disassembly and final evaluation. They apply to the Match Director, Range Master, Chief Range Officers, Range Officers, Stats Director, Support Coordinators, Medical Staff, Security, Armory, Logistics, Maintenance, Volunteering, Athletes, and Delegates.

CHAPTER II.

TECHNICAL AND OPERATIONAL ORGANIZATION

2.1 Discipline management

The person responsible for the discipline will exercise the function of Match Director and will be the highest administrative and operational authority. It will maintain permanent liaison with the Organizing Committee, the General Directorate of the National Police, the USIP and the support entities.

CHARGE	PRIMARY RESPONSIBILITY
Match Director	Comprehensive management, approval of the work plan, institutional coordination and reporting.
Range Master	Maximum technical and regulatory authority at the shooting range.
Chief Range Officer	Management and control of each stage and supervision of the Range Officers.
Range Officer	Application of commands, security control, timing and scoring.
Stats Director	Administration of registrations, results, data backup and official publication.
Security Coordinator	Access control, perimeter, secure areas and initial response.
Armoury Coordinator	Inspection, inventory, custody, delivery and receipt of weapons and ammunition.
Logistics Coordinator	Supply, transportation, food, hydration, furniture and general support.
Medical Coordinator	First aid, ambulance, hospital referral and incident logging.
Infrastructure Coordinator	Assembly, certification and maintenance of courts, booths, targets and signage.

2.2 Coordination meetings

Follow-up meetings will be held at a frequency defined by the Match Director. Before the start of the competition, a mandatory technical meeting will be held with the delegates, in which schedules, composition of squads, security rules, protest procedure, inspection of weapons and particular conditions of the field will be confirmed.

CHAPTER III. INFRASTRUCTURE MASTER PLAN

3.1 Main Stage

The competition will take place at the Hatillo Shooting Range, San Cristóbal (https://maps.app.goo.gl/URrcjPn3Gwzbn4MT7?g_st=aw). The area must have functional berms, clearly demarcated safety lines, controlled traffic areas, spaces for referees, competitors, authorized public, press, medical services, armory and results processing.

The thermal behavior of San Cristóbal in October shows an average of 30 °C maximum and 23 °C minimum. This area of the country experiences a humid tropical climate, where rainfall tends to be more frequent due to the transition from the end of the rainy season.

3.2 Minimum Components

COMPONENT	TECHNICAL CRITERIA	RESPONSIBLE
Canchas o stages	Approved design, distances verified, fault lines, targets, and safe devices.	Range Master / Infrastructure
Modular Booths	Stable structures for doors, windows, ladders and tactical positions.	Infrastructure
Berms and bullets	Containment capacity, daily inspection and absence of foreseeable bounces.	Security / Infrastructure
Safe Area	A marked area, without ammunition, intended for authorised handling of unloaded weapons.	Security
Temporary Armory	Access control, inventory, entry and exit registration and permanent custody.	Armory
Medical field	Visible post, expedited access by ambulance and media.	Medical Coordination
Statistics area	Power, connectivity, backup equipment and restricted access.	Stats Director
Spectator area	Physical separation, signage, capacity control and protection.	Security
Hydration and rest	Points protected from the sun, water and waste management.	Logistics

Clothing

Participants must have Pants and T-shirt representing the police of their country and Hiking Shoes or Boots.

Safety Equipment

Mandatory use of:

- Protective glasses.
- Hearing protectors (earplugs or earmuffs).

No person may enter or remain at the shooting range without the required personal protective equipment.

IPSC and Metal Boards:

Starting position

Standing, gun holstered and hands resting on his ears.

Route

It will fire from the indicated positions. He will not be able to advance until he knocks down the corresponding metal targets.

Scoring

Zone A = 5 points, Zone C = 3 points, Zone D = 1 point. The two best hits per target will be counted.

3.3 Justification of acquisitions

The official IPSC targets, patches, metal booths and field identification elements are part of the minimum set to guarantee regulatory uniformity, operational continuity, institutional image and assembly capacity. Acquisitions must be processed through the corresponding administrative channels and must be accompanied by technical specifications, quantities, intended use and person responsible for reception.

3.4 Pre-certification

The Range Master will carry out a technical inspection before opening the field to competitors. No stage may be used without verification of stability, firing angles, activators, metal targets, fault lines, movement zones and access of the officials.

CHAPTER IV. REGISTRATION, ACCREDITATION AND CONTROL OF DELEGATIONS

4.1 Registration

Quota per country. One (01) team: five (05) regular athletes, one (01) alternate and one (01) delegate; maximum total: seven (07) members.

Composition by sex. Male and female participation; the team may be mixed, without a mandatory quota by sex.

Place and date. Hatillo Shooting Range, San Cristobal, Dominican Republic, October 26-30, 2026.

Registration deadline. September 10, 2026. The nominal list will be subject to documentary validation and confirmation by the Organizing Committee.

4.2 Accreditation

REQUIREMENT	VALIDATION
Travel document and police ID	Identity and institutional belonging.
Official report of the delegation	Correspondence with the approved registration.
Gun and magazine data	Make, model, caliber and serial number. (supplied by the host country)
Ammunition declaration	Quantity, caliber and origin. (supplied by the host country)
Acceptance of standards	Signature of knowledge of the manual and safety rules.
Declared Medical Condition	Information needed for emergency response.

4.3 Technical meeting

The technical meeting will be mandatory for delegates. The program, firing order, communication channels, appeal procedure, conditions of transportation to the field, weapons control, and access restrictions will be delivered or confirmed.

CHAPTER V. ARMS AND AMMUNITION CONTROL

5.1 Principles

The control of weapons and ammunition shall be governed by the principles of legality, traceability, custody, security and individual responsibility. All weapons will be treated as loaded until proven otherwise.

5.2 Technical inspection

- Confirmation of make, model, caliber and serial number.
- Verification of safe operation and adequacy to the division of competence.
- Checking the holster, retention and magazine holder system.
- Registration of observations and technical authorization or rejection.
- Affixing of mark or proof of inspection when applicable.

5.3 Weapons on loan

Delegations authorized to compete with weapons provided by the organization will receive a weapon, three magazines and a multipurpose belt, by means of an individual certificate of delivery. Before the competition they will be granted a period of familiarization. The return will be made unloaded, cleaned and with joint verification of the condition of the equipment.

Masada IWI

GLOCK 17

5.4 Official ammunition

The official ammunition will be 9 mm Luger FMJ T MFS 8 g / 124 gr., according to the announced specifications, and will be supplied by the host country both for the official practices and the familiarization period and for the tournament days. A system of reception, storage, distribution by squad, control of remnants and incident reporting will be established. No participant may substitute official ammunition without express authorization.

CHAPTER VI. OPERATIONAL SAFETY

6.1 Fundamental rules

- All weapons will be considered loaded until they are verified.
- The barrel shall remain oriented in a safe direction and within the authorized angles.
- The finger will stay out of the trigger until the shooter has decided to shoot.
- Weapons handling will be carried out only under orders from the Range Officer or within a Safe Area.
- It is forbidden to handle ammunition within the Safe Area.
- Any unsafe conduct may result in immediate halt to the course and disqualification in accordance with the regulations.

6.2 Commands

COMMAND	EXPECTED ACTION
Load and Make Ready	Prepare the weapon under the supervision of the Range Officer.
Are You Ready?	Competitor confirmation.
Standby	Immediate preparation for the start signal.
Stop	Immediate cessation of all action.
If You Are Finished, Unload and Show Clear	Download and display empty bedroom.
If Clear, Hammer Down, Holster	Final security action and sheathing.
Range Is Clear	Authorization to approach targets and restore the stage.

6.3 Suspension of activities

The Range Master may suspend one or more stages due to thunderstorm, rain that compromises safety, structural failure, medical emergency, intrusion into the area, lighting deficiency or any circumstance that prevents it from continuing safely and on equal terms.

CHAPTER VII. RISK AND CONTINGENCY MANAGEMENT

7.1 Risk matrix

RISK	PROB.	IMPACT	LEVEL	PREVENTIVE MEASURE	ANSWER
Accidental Shooting	Low	Critical	High	Briefing, competent RO, finger control and angles.	Stop, secure gun, medical care and research.
Fall injury	Media	High	High	Inspection of the terrain, non-slip and surfaces signage.	First aid and evacuation according to severity.
Metallic White Failure	Media	Medium	Moderate	Test and calibration before each batch.	Suspend stage, repair and determine re-shoot.
Thunderstorm	Media	High	High	Weather monitoring and identified shelters.	Suspend, evacuate to protected areas and reschedule.
Loss of power/data	Media	Medium	Moderate	UPS, generator and periodic backup.	Temporary manual operation and backup restoration.
Unauthorized access	Low	High	Moderate	Accreditation, perimeter and entry control.	Interception, isolation and reporting to the coordinator.
Dehydration or heat stroke	Media	High	High	Water, shade, breaks and medical surveillance.	Cooling, hydration and transfer if necessary.
Cassette structural fault	Low	Critical	High	Certification, anchoring and daily inspection.	Close stage, cordon off and repair before reopening.

7.2 Activation of the contingency plan

The activation will correspond to the Match Director or the Range Master depending on the nature of the event. The priority will be to preserve life, control danger, maintain communication, document decisions and restore competition only when safe conditions exist.

CHAPTER VIII.

MEDICAL RESPONSE AND EVACUATION

8.1 Minimum Resources

- Ambulance operational during training and competition.
- Accredited medical or paramedical personnel.
- First aid kits and trauma equipment located at strategic points.
- Evacuation route cleared and referral hospital identified.
- Redundant means of communication with security and technical direction.

8.2 Procedure

STEP	RESPONSIBLE	ACTION
1	Range Officer	Order Stop and secure the area.
2	Medical Coordinator	Assess, stabilize, and classify the emergency.
3	Security	Clear the route and control the perimeter.
4	Match Director / Range Master	Suspend or adjust the operation.
5	Ambulance	Transfer to the health center when appropriate.
6	Technical Secretariat	Record the incident and notify the authorities.

CHAPTER IX.

DEVELOPMENT OF THE COMPETITION

9.1 Format

The competition will be organized on previously approved IPSC courts or stages. The shooting order will be established by individual squads and will be officially communicated. Athletes must present themselves well in advance, visible accreditation and complete equipment.

9.2 Flow of a square

MOMENT	ACTIVITY
Presentation	Confirmation of athletes and equipment.
Briefing	Official reading of the stage and question period.
Walk-through	Recognition within the authorized time.
Execution	Individual shooting under the control of the Range Officer.
Scoring	Verification and signature of the sheet or electronic device.
Catering	Replacement of targets, painting and preparation of the next athlete.
Rotation	Orderly transfer to the next stage.

STAGE Official Practice (Day Before)

ITEM	SPECIFICATION
Course Type	Long Course – Official Practice
Minimal Shots	15 single shots
Scoring	Practice
Targets	IPSC Cardboard, Popper, Mobile, Hostages
Ammo	75 cartuchos 9mm (124/115 grains).
Division	Production - Pistol Supply Only
Maximum Time	15 minutes. Ends at the "END" command of the computer

STAGE 1

ITEM	SPECIFICATION
Course Type	Long Course - Nivel 1
Minimal Shots	20 shots
Scoring	Comstock, Factor Hit
Targets	6 IPSC Cardboard, 4 Popper, 2 Hostages
Ammo	28 cartridges 9mm (124/115 grains). Distribution: 14+10+8
Division	Production - Pistol Supply Only
Maximum Time	No limit. Ends with the shooter's "END" command

STAGE 2 & 3

ITEM	SPECIFICATION
Course Type	Long Course - Nivel 1
Minimal Shots	18 shots
Scoring	Comstock, Factor Hit
Targets	5 IPSC Cardboard, 3 Popper, 1 Hostage
Ammo	26 cartridges 9mm (124/115 grains). Distribution: 15+11
Division	Production - Pistol Supply Only
Maximum Time	No limit. Ends with the shooter's "END" command

STAGE 4

USPSA October 17/18, 2015
Stage 5
Location: Bay 4
Course Design: Glen Wong

Start Position: Heels on either X's, Gun loaded and holstered, hands relaxed at sides

Stage Procedure: At start signal, engage targets from within the fault lines. Targets may be shot through the Low Port outlined in blue. All walls run from ground to infinity with the exception of the one with the Low Port.

Scoring: Comstock, 30 rounds, 150 points

Targets: 14 metrics, 2 USP

Scored hits: Best 2 on paper

Start-Stop: Audible-last shot

Rules: USPSA current edition

ITEM	SPECIFICATION
Course Type	Long Course - Nivel 1
Minimal Shots	12 shots
Scoring	Comstock, Factor Hit
Targets	4 IPSC Cardboard, 2 Popper, 1 Mobile, 1 Hostage
Ammo	16 cartridges 9mm (124/115 grains). Distribution: 8+8
Division	Production - Pistol Supply Only
Maximum Time	No limit. Ends with the shooter's "END" command

STAGE 5

ITEM	SPECIFICATION
Course Type	Long Course - Nivel 1
Minimal Shots	22 shots
Scoring	Comstock, Factor Hit
Targets	8 IPSC Cardboard, 4 Popper, 1 mobile, 2 hostages
Ammo	30 cartridges 9mm (124/115 grains). Distribution: 14+10+6
Division	Production - Pistol Supply Only
Maximum Time	No limit. Ends with the shooter's "END" command

OFFICIAL BRIEFING — STAGE 6: "URBAN INTERVENTION"

ITEM	SPECIFICATION
Course Type	Long Course - Nivel 1
Minimal Shots	14 shots
Scoring	Comstock, Factor Hit
Targets	8 IPSC Cardboard, 6 Popper, 2 Mobile, 6 Hostages
Ammo	22 9mm cartridges (124/115 grains). Distribution: 9+9+4
Division	Production - Pistol Supply Only
Maximum Time	No limit. Ends with the shooter's "END" command

Item	Specification
Course Type	Long Course - Nivel 1
Minimal Shots	30 shots
Scoring	Comstock, Factor Hit
Targets	8 IPSC Cardboard, 6 Popper, 2 Mobile, 6 Hostages
Ammo	38 cartridges 9mm (124/115 grains). Distribution: 15+15+8
Division	Production - Pistol Supply Only
Maximum Time	No limit. Ends with the shooter's "END" command

Ammunition overview

STAGE	INDIVIDUAL AMMUNITION QUANTITY	QUANTITY PER TEAM
Official Practice	75 individual shots (5 shooters and one alternate)	450
Court 1	28 shots per shooter	140
Court 2	26 shots per shooter	130
Court 3	16 shots per shooter	80
Court 4	30 shots per shooter	150
Court 5	22 shots per shooter	110
Court 6	38 shot per shooter	190
Total ammunition	235	1250
Contingency munition quantities	875	

9.3 Scoring and results

The scoring system will be the one provided by IPSC and administered through the official platform defined for the event. Each athlete or delegate will verify their result before signing it. Provisional rankings will be published at certain intervals and the final ranking will be issued after any outstanding claims have been resolved.

IPSC SCORING SYSTEM AND SCOREBOARD HIT FACTOR CALCULATION AND OPERATION GUIDE

HIT FACTOR (HF) – FÓRMULA Y PUNTAJES

HF = (PUNTOS TOTALES OBTENIDOS – PENALIZACIONES) / TIEMPO TOTAL EMPLEADO (EN SEGUNDOS)

PUNTAJES EN LOS BLANCOS	PENALIZACIONES	FACTOR DETERMINANTE: EL TIEMPO						
 ALPHA (A) 5 PUNTOS CHARLIE (C) 3 PUNTOS DELTA (D) 1 PUNTO POPPERS 5 PUNTOS cada uno	 MISS (FALLO) -5 PUNTOS Cada blanco no impactado. NO SHOOT (BLANCO / REHÉN) -10 PUNTOS Cada blanco de este tipo impactado. PROCEDIMIENTO -10 PUNTOS Por no tener un buen procedimiento. DESCALIFICACIÓN (DQ) Por no tener un buen procedimiento grave u otra falta mayor a las reglas.	 Los segundos totales se usan al final para dividir tus puntos netos y sacar el HIT FACTOR (HF). HF = $\frac{\text{PUNTOS TOTALES OBTENIDOS} - \text{PENALIZACIONES}}{\text{TIEMPO TOTAL EMPLEADO (EN SEGUNDOS)}}$ EJEMPLO PRÁCTICO <table style="width: 100%; font-size: 0.9em;"> <tr> <td style="width: 50%;">PUNTOS TOTALES OBTENIDOS: 150</td> <td style="width: 50%; text-align: right;">HF = $\frac{150 - 25}{100.00}$</td> </tr> <tr> <td>PENALIZACIONES: -25</td> <td style="text-align: right;">HF = 1.250</td> </tr> <tr> <td>TIEMPO TOTAL EMPLEADO: 100.00 seg</td> <td></td> </tr> </table>	PUNTOS TOTALES OBTENIDOS: 150	HF = $\frac{150 - 25}{100.00}$	PENALIZACIONES: -25	HF = 1.250	TIEMPO TOTAL EMPLEADO: 100.00 seg	
PUNTOS TOTALES OBTENIDOS: 150	HF = $\frac{150 - 25}{100.00}$							
PENALIZACIONES: -25	HF = 1.250							
TIEMPO TOTAL EMPLEADO: 100.00 seg								

CÓMO SE CALCULA

1 Suma los puntos de todos los blancos impactados.

+ + +

2 Resta todas las penalizaciones aplicadas.

- - ...

3 Obtienes tus PUNTOS NETOS.

4 Divide tus PUNTOS NETOS entre el TIEMPO TOTAL EMPLEADO (en segundos).

El resultado es tu HIT FACTOR (HF).

HF

ENTIENDE: Más **PUNTOS**, menos **PENALIZACIONES** y menos **TIEMPO** = **MEJOR HIT FACTOR**

¿CÓMO SE USA EL SCOREBOARD?

El arbitraje entrega los **PUNTOS** ya calculados y el **TIEMPO**. El sistema calcula automáticamente el **HIT FACTOR (HF)** y convierte el tiempo a **segundos**.

¿QUÉ ENTREGA EL ARBITRAJE?

- **PUNTOS TOTALES** ya calculados (después de aplicar todas las puntuaciones).
- **TIEMPO** del competidor (minutos, segundos y centésimas).
- Fallas/penalizaciones es **OPCIONAL** (si se desea mostrar).

¿QUÉ CALCULA EL SISTEMA (HTML)?

- Convierte el **TIEMPO** a **SEGUNDOS TOTALES**. (min:seg:cent → segundos.decimales)
- Calcula automáticamente el **HIT FACTOR (HF)** con la fórmula:

$$HF = \frac{\text{PUNTOS NETOS}}{\text{TIEMPO TOTAL (seg)}}$$

(Puntos netos = Puntos entregados por arbitraje)

¿QUÉ SE MUESTRA EN EL SCOREBOARD?

- Posición
- Foto / Equipo / Participante
- Puntos (netos entregados)
- Tiempo (en formato mm:ss.cc)
- Tiempo en Segundos (calculado)
- HIT FACTOR (calculado)
- Fallas / Penalizaciones (opcional)
- Estado (FINALIZADO / DESCALIFICADO)

FLUJO DE USO PASO A PASO

1 SELECCIONAR COMPETIDOR

Elige o busca al competidor que va a competir.

2 INGRESAR PUNTOS

Ingresas los puntos NETOS ya calculados por el arbitraje.

3 INGRESAR TIEMPO

Ingresas el tiempo en formato mm:ss.cc

4 (OPCIONAL) FALLAS / PENALIZACIONES

Si lo deseas, registra las fallas para referencia. Esto NO afecta los puntos (ya están netos).

5 GUARDAR / FINALIZAR

Guarda el resultado. El sistema calcula todo automáticamente.

6 VER EN SCOREBOARD

El scoreboard se actualiza en tiempo real con los datos.

EJEMPLO DE USO

DATOS ENTREGADOS POR ARBITRAJE

PUNTOS NETOS:

150

TIEMPO:

01:42.35

(mm:ss.cc)

FALLAS / PENALIZACIONES: -

2 Miss

(opcional)

CÁLCULOS AUTOMÁTICOS DEL SISTEMA

TIEMPO EN SEGUNDOS:

102.35

(segundos.decimales)

HIT FACTOR (HF):

1.466

$HF = \frac{150}{102.35}$

HF = 1.466

VISTA EN EL SCOREBOARD

POS	FOTO	PARTICIPANTE	PUNTOS	TIEMPO	SEGUNDOS	HF	FALLAS (OPCIONAL)	ESTADO
1		Soto Abreu	160	01:48.20	108.20	1.479	1 Miss	FINALIZADO
2		Mieses Cruz	150	01:42.35	102.35	1.466	2 Miss	FINALIZADO
3		Rodriguez O.	110	01:30.00	90.00	1.222	1 No Shoot	FINALIZADO
4		Pérez L.	130	01:20.10	80.10	1.623	0	FINALIZADO
5		Gómez R.	95	01:15.55	75.55	1.257	1 Proced.	DESCALIFICADO

NOTAS IMPORTANTES

- Los PUNTOS que ingresas ya deben estar NETOS (después de aplicar todas las puntuaciones y penalizaciones del arbitraje).
- El sistema NO modifica los puntos, solo usa ese valor para calcular el HF.
- El tiempo debe ingresarse en formato mm:ss.cc (ejemplo: 01:42.35).
- Las fallas son opcionales y solo informativas.
- El HF se muestra con 3 decimales.

RECORDATORIO DE LA FÓRMULA

$$HF = \frac{\text{PUNTOS TOTALES OBTENIDOS} - \text{PENALIZACIONES}}{\text{TIEMPO TOTAL EMPLEADO (EN SEGUNDOS)}}$$

ESTADOS

FINALIZADO

Competidor finalizó su participación.

DESCALIFICADO

Competidor descalificado.

CHAPTER X. PROTESTS, APPEALS AND DISCIPLINE

10.1 Immediate Consultations

Doubts about scoring or applying the briefing will initially be raised with the Range Officer and, if persistent, with the Chief Range Officer or Range Master. The discussion should be kept within the limits of respect and discipline.

10.2 Appeal

Appeals shall be submitted in writing within the statutory time limit, accompanied by the established requirements. The jury will act independently, exclude from voting any member whose country is directly involved and issue a final decision.

10.3 Punishable conduct

- Unauthorized handling of weapons or ammunition.
- Willful failure to comply with safety orders.
- Alteration of targets, equipment or results.
- Unsportsmanlike conduct, aggression or disrespect to officials and participants.
- Access to restricted areas without authorization.

CHAPTER XI. LOGISTICS AND SUPPORT SERVICES

11.1 Sourcing

The logistics plan will include inventory, reception, storage and distribution of blanks, patches, paint, tools, batteries, stopwatches, radios, furniture, water, food, medical supplies and office supplies. An operational reserve will be maintained to respond to damage or consumption higher than expected.

11.2 Communications

CHANNEL	USAGE	USERS
Address	General decisions and liaison with the Organizing Committee.	Match Director, Range Master and coordinators.
Operations	Coordination of stages and flow of squads.	CRO, RO and logistics.
Security	Accesses, perimeter and incidents.	Security and command.
Medical	Emergencies and evacuation.	Doctors, ambulance and security.
Booking	Replacement due to saturation or failure.	Authorized personnel.

11.3 Transportation

Routes and schedules will be coordinated between accommodation, shooting range and official activities. The transport of weapons and ammunition shall be carried out under institutional control, separate from the general access and with records of delivery and receipt where appropriate.

CHAPTER XII. QUALITY CONTROL AND EVALUATION

12.1 Daily Checklist

AREA	VERIFICATION
Stages	Targets, activators, lines, sheds, floors and angles.
Security	Perimeter, Safe Area, signage and accesses.
Armory	Inventory, records, custody and ammunition.
Medical	Ambulance, personnel, first aid kits and evacuation route.
Statistics	Equipment, power, connectivity and backup.
Logistics	Water, lunch, shade, toilets, cleaning and supplies.
Communications	Radios, batteries, channels and tests.

12.2 Final report

At the conclusion of the discipline, the Match Director will present a consolidated report that includes participation by country, results, execution of the schedule, incidents, resources used, acquisitions, lessons learned, photographic evidence and recommendations for future events.

FORMALIZATION AND SIGNATURES

This Technical and Operational Manual enters into force upon its approval by the competent authorities of the Organizing Committee and will be mandatory for technical, operational, logistical personnel and delegations participating in the IPSC Practical Shooting discipline.
